

Moose Antler Headband

Supplies:

2 pieces of brown cardstock 8 1/2 x 11"

Tag board

Antler pattern (below)

Scissors

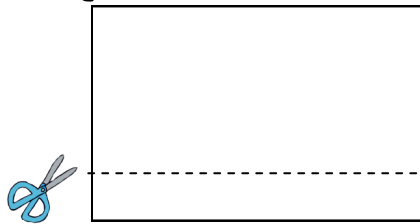

Tape, glue, or a stapler

Directions:

1. Print out the template and staple to a piece of tag board. Cut out the antler. This will be your tracing template. If you are only making one headband you could print two patterns and staple directly onto the cardstock and cut out.

2. Cut a 1.5 inch strip off the bottom of each cardstock paper.

3. Staple, glue or tape the two strips together. Measure band around child's head and glue, tape or staple together.

4. Trace the antler pattern on the remaining pieces of cardstock. Cut out.

5. Staple, glue or tape the antlers to the back of the headband.
