

What Else Can I Do?

Web Resources

- *Prevent old, unwanted crayons from going into landfills. Send your crayons to Crazy Crayons to be recycled into new crayons. http://www.crazycrayons.com/recycle_program.html
- *Adopt an acre or coral reef. Through the Nature Conservancy you can save rainforests, grasslands, and coral reefs in the United States and all over the world. <http://adopt.nature.org/>
- *Volunteer to help clean up your local beach. Heal the Bay has numerous opportunities to get involved. <http://www.healthebay.org/>
- *Start your own environmental club and brainstorm ways to protect our environment. For ideas and information about starting your own chapter visit Kids F.A.C.E. (developed by a 9 year old girl). <http://www.kidsface.org/>
- *Write your local congress person and encourage them to pass bills that will protect our environment. <http://www.house.gov/representatives/find/>
<http://www.contactingthecongress.org/>
- *Visit <http://ewg.org/> to learn sign petitions and learn about bills to support.
- *Explore Recycle City for fun games and activities that teach you ways to recycle and reuse materials. <http://www.epa.gov/recyclecity/>
- *An interactive website for all you need to know about what runs our everyday appliances. <http://energyquest.ca.gov/index.html>
- *Explore biodiversity, toxins, and sustainably cooking through fun games. <http://www.biodiversity911.org/FunandGames/funandgames.html#>
